## GET BETTER LIGHT AT THE SAME COST

Tantalum lamps, the new incandescent lights for home use, have been received here by the Passenger and Power Company, and are being gotten ready for distribution to customers. Tantalum and tungsten lamps are the latest perfection of electric lighting engineers in incandescent lamps. Tungsten lamps are so powerful that they cannot be conveniently used in homes and are especially adapted to stores, large offices and factories, where a bright, white light is needed.

Tantalum lamps give the same kind of light as the tungsten, but differ in that they can be made of smaller candle-power and can, therefore, be used in homes.

The great advantage in these lamps is that they give considerably more light, illuminating power, than the old-fashioned carbon lamps, and with the same amount of electric current.

For instance, a 25-candlepower tantalum lamp consumes exactly the same amount of current as one of the old 16-candlepower carbon lamps. The tungsten lamp is still more powerful, but cannot be made in small candlepower.

Since the company has illuminated the offices at Seventh and Main Streets with the tungsten lamps hundreds of merchants and business men have called to see and learn the advantages. The result is that the demand is rapidly increasing for the new light. Tantalum lamps will also be installed this week, and householders can call and have explained to them the benefits of this lamp.

At present the Park Hotel and some residences in Ginter Park are the first places to have the new tantalum lamps. In the hotel a cluster of five 16-candlepower lamps, giving 80-candlepower, were replaced by six tantalum lamps, giving 150-candlepower and consuming exactly the same amount of current and costing the same for use as the old lamps. In the Ginter Park homes one tantalum lamp of 25-candlepower, is placed where one 16-candlepower carbon lamp was formerly used. The result is the rooms are far better lighted and the cost of electricity is no more.

Expert light men are to be found in the offices of the company here every evening, Sundays excepted, until 10 o'clock to explain the workings and benefits of the new lamps.

## FARMERS TO PUT IN LARGER CROPS

High Prices of Produce and More Adequate Supply of Labor Encourage Operations.

## PUSH WORK ON RAILROAD

Track Being Laid and Line May Be in Operation to Roanoke by September.

[Special to The Times-Dispatch.]  
MEHERRIN, VA., March 14.—The farming interest in Southside Virginia is taking on new life since spring has begun to open up, and there is a rush generally among these people for the plow and other farming implements in order that large crops may be seeded early. The high prices received during the past year for all classes of products raised from the soil has put new vigor in farmers.

Preparations are being made for a great increase in the area of tobacco. This product has sold unusually well, and as a result many who for the past several years have cut this out from their farms entirely will go back and take up this industry where it was left off. In a great many instances the dark grower was the one who discontinued the cultivation of the weed, and he was forced to get out on account of the small prices paid for dark, while the bright grower kept increasing his crop, in many instances on account of the prices that good bright leaf has always demanded. The situation has changed a great deal during the past year, and it is estimated that there is scarcely any difference in the average received for these two kinds during the past season. Not only has this been the case in the tobacco industry, but almost every product raised on the farm has greatly increased in market value. Many have almost doubled the usual price, and the demand is more than equal to the supply. This, with the reduction in the price of labor and the supply more plentiful than for several years past, places the farmer in better position than for quite a number of years to raise large crops and to improve everything generally in connection with his farm work.

The work of laying rail on the Tidewater Railway is well under way. This was taken up last week near Nutbush, eight miles east of this place, and will be rushed through as fast as possible. The roadbed is ready the entire way to Brookneal, several miles west of here, with the exception of two or three bridges, which will be completed in ample time to continue to the point where the rail will be joined to that laid west. It is estimated that the entire line will be ready for operation as far west as Roanoke, Va., by September 1st.

The various lumber plants in this section are increasing their force, as well as output, since spring has set in, and all are running full time. Lumber is being shipped as fast as it can be hauled out.

## WANT LOWER LIGHT RATES.

**Business Men of Newport News Join in Concerted Movement.**  
NEWPORT NEWS, VA., March 14.—A movement looking toward a concerted fight for a reduction in electric light rates has been started by the merchants and business men of this city. Committees have been appointed by the Chamber of Commerce and the Merchants' Association, and it is probable that the matter will be brought to the attention of the City Council at its next meeting.

The chief cause for complaint is the recent action of the Citizens' Railway, Light and Power Company in reducing the discounts which have been allowed to consumers. This, it is said, will increase the cost of electric current to the larger consumers by something like 10 per cent.

## ACTIVE BOARD OF TRADE.

Entertainment—J. T. Stubbs, Jr., T. H. Gaddy, H. G. Spencer, A. H. Sharp and Richard House.  
In each committee the first named gentleman is to act as chairman.

## TOBACCO-GROWERS TO MEET

**Matters to Come Before the Mutual Protective Association at Danville.**  
[Special to The Times-Dispatch.]  
DANVILLE, VA., March 14.—Many farmers throughout the tobacco-growing sections of Virginia and North Carolina are expected to assemble here next Tuesday to attend a meeting to be held under the auspices of the Mutual Protective Association of Virginia Tobacco Growers. Many matters of importance will be taken up for consideration and action, and plans will be arranged whereby the association may be enabled to continue the warfare inaugurated several years ago to fight the American Tobacco Company,

and do away with the practice of selling tobacco at public auction on the waterfront.

One of the main objects of the meeting here next week will be to complete plans for the continued operation of the warehouse, which is being conducted under the auspices of the association. The members of the association have been bringing their tobacco to the warehouse, where it is held until prices deemed just and reasonable by a special committee can be secured. Practically all of the old crop, which has been stored in the warehouse has been disposed of, and settlements will be made with the stockholders. The farmers have also under consideration a plan to establish a priory, where the product can be stored and kept in proper condition.

## PERMITS TO BUILD

Permits for buildings and repairs were issued yesterday by Henry C. Beck, city engineer, as follows:  
C. F. Watkins, to erect a frame dwelling on the south side of Main Street, between West Street and Auburn Avenue, \$1,250.  
K. Johnson, to erect a frame tenement south side of Jackson Street, between West Street and Randolph Street, about \$2,000.  
W. F. Haase, to erect a brick dwelling, 101 Grove Avenue, \$5,500.  
Gilbert J. Hunt, to erect two brick dwellings, 2007 and 2009 West Grace Street, about \$5,000.  
W. J. Gilman, to erect a detached brick dwelling on the north side of Grace Street, between Allison and Addison Streets, about \$5,000.  
Mrs. Julia B. Davis, to erect a brick dwelling, 2002 Floyd Avenue, \$5,500.  
Jacob Stoneman's estate, to erect a brick and frame garage, on South Fifth Street, \$1,500.  
Carlwell Machine Company, to repair brick factory at Nineteenth and Cary Streets, \$500.  
The building operations of the first two weeks of this month, concluded yesterday, largely exceed those of the first two weeks in February.

## ERECT BIG OFFICE BUILDING WHERE WASHINGTON STOPPED

[Special to The Times-Dispatch.]  
SALISBURY, N. C., March 14.—One of the biggest real estate deals made in Salisbury for a year was consummated yesterday when the old Mason House site, where George Washington stopped when in this city, was sold by Gregory & Strachan to H. Clay Grubb, the wealthy district of Davidson county. The price paid was \$35,000, and a modern six-story office building will be erected on the site.

## Patents to Virginians.

[Special to The Times-Dispatch.]  
WASHINGTON, D. C., March 14.—Messrs. Davis & Davis, Washington patent attorneys, report the grant, this week, to citizens of Virginia, of the following patents:  
E. H. Marshall, of Markham, feed-bag holders.  
E. E. Mottier, of Alexandria, electric block-signal.  
J. N. Perkins, of Richmond, attachment for molders' flasks.  
W. Scott, of Fredericksburg, door stop and fastener.  
W. T. Stanworth, of Norfolk, signaling apparatus.

## MAY MOVE THE CHURCH.

**Danville Congregation to Hold Meeting To-Morrow to Consider Matter.**  
[Special to The Times-Dispatch.]  
DANVILLE, VA., March 14.—A congregational meeting of the First Presbyterian Church will be held at the conclusion of the regular morning service next Sunday, at which time the members will consider the question of the removal of the church from its present location on Jefferson Street to a more desirable place on Main Street. The proposed change has been under consideration for some time, and has recently been brought up by the brotherhood of the church. Sentiment regarding the change is reported to be divided.

## WEDS A RICHMOND MAN.

**Marriage of Miss Frances, of Louisa, to Mr. Edwin Spencer Robinson.**  
[Special to The Times-Dispatch.]  
FREDERICKS HALL, VA., March 14.—Retracing the home of Mrs. Bettie Frances, was the scene of a beautiful marriage on Wednesday, the contracting parties being Miss Annie Catherine Frances and Mr. Edwin Spencer Robinson, of Richmond, Va. Rev. J. R. Wilkinson officiating. The bride was becomingly attired in white embroidered silk net, trimmed with massalino silk and point lace, made over white taffeta silk, empire style, and carried a shower bouquet of bride's roses. The bride's sister, Miss Birdie Frances, maid of honor, was attired in embroidered mull, elaborately trimmed with val lace, and carried a shower bouquet of pink carnations. The groom's brother, Mr. Ben Robinson, acted as best man. After many hearty congratulations the couple, accompanied by many

friends, were conveyed to Fredericks Hall Station, where they left for an extended Northern trip.

The bride's traveling suit was blue chiffon Panama, with hat and gloves to match. Guests from a distance were: Mr. and Mrs. E. A. Bosom, of Newark, N. J.; Miss Winifred Goodwin, of Staunton, Va.; Miss Marie Francisco, of Louisa, Va.; Miss Margaret Francisco, sister of the bride, from Norfolk, Va.; Mr. B. M. Robinson and Miss Caroline Robinson, of Richmond, Va.; and Mr. Wm. V. Francisco, brother of the bride, of Richmond, Va., besides a large attendance of relatives and friends from the county.

The bride received a great number of handsome presents. The couple will make their home in Richmond, Va., where Mr. Robinson is a prosperous business man.

## BOTH FACTIONS MAKING SLATES.

**Candidates for Mayor and Board of Control Being Selected.**  
[Special to The Times-Dispatch.]  
NORFOLK, VA., March 14.—The people of Norfolk are warring as to the probable political line-up and the candidates in the approaching Democratic primary for Mayor, a member of the board of control, and councilmen and aldermen from each of the eight wards.

The politicians are busy, but the work going on is under cover. The canvass, as it is declared, is to secure the candidacy of men of influence on each of the various tickets, it being recognized that the struggle this spring will be for supremacy. With the administration having barely a majority

in both branches of council and a minority of the board of control members, it is recognized that the successful party at the polls will have the balance of power in the new council.

It is declared by the friends of Dr. Riddick that he will be in the race for Mayor, but whether as an independent or on the "ring" ticket, is not known. It is also known that the good government faction will put out a candidate, Councilman Burke, a well known anti, has already announced his candidacy.

The question of who will be in the race for the board of control is unsettled. For good government faction it is declared that either C. W. Norther or J. Belote will make the race. For the anti, there are several mentioned, W. M. Hanner and Harry Hodges, the present incumbent, being prominently mentioned.

## EXPECT AN AGREEMENT ON THE WAGE SCALE

[Special to The Times-Dispatch.]  
SPENCER, N. C., March 14.—The employees of the Southern Railway Company who were temporarily suspended from the service on the 10th inst. were advised by their representative committee at Washington yesterday that the conferences with the Interstate Commerce Commission are still being held daily, and that the proposed reduction of wages is being strenuously opposed. It is stated that this is the first time in the history of organized labor when all trades have been brought together in one conference. The employees' committee is satisfied that an agreement on the wage scale will be reached in a few days.

## Special Spring Satisfaction Sale

New goods and big bargains just at the time you want them! Our new spring Furniture, Mattings, Baby Carriages, Etc., are prettier, more sensibly designed and cheaper than ever, and having just finished our inventory we have lots of special bargains to offer you.

Standard Rotary Machines do seven hours' sewing in four, and run so easy and so smooth that the frailest women sew for hours without feeling the least tired. Standard prices are no higher than those of inferior machines.

If you can't afford a Standard let us sell you a good second-hand machine. We have them from 98c to \$20.00. Some just as good as new. (These were taken in exchange for new Standards).

Mattings; our line of 35c and 40c Mattings will outwear any cheap Carpet made; colors and quality were never better.

Baby Carriages; our line of Imperial brown finish, rattan hood Carriages and Go-Carts is large, and the prices—just what you want to pay—from \$5 to \$35; they're light strong, roomy and afford the child the greatest comfort and protection.

**20% Off.** We have too many Oak and Mahogany Rocking Chairs. To thin down stock we offer 20% off the prices of any Rocker in the house. We also offer you the best 59c Porch Rocker that has ever been shown in this city.

Quality Gas Ranges are guaranteed to cook, bake and broil just as good as ANY stove you ever used, and do it cheaper. IF, AFTER TRYING ONE, YOU DON'T FIND SUCH TO BE THE CASE WE'LL REFUND YOUR MONEY. One

Other Go-Carts from \$1.98 up. We have two shell shaped Carriages that sold for \$55, in the light finish; we'll sell them for \$24.98 to close out.

Iron Beds; we have seventy-five, all iron and steel (spring and all), institution beds, mind you—these are not simple iron cots, but regular, extra strong institution beds, worth \$8 and \$9; come quick and you might get one for \$3.48.

12 Wood Frame Springs, for iron beds, full double size, 48c each.

15 all Iron and Steel Springs, 3-4 and double sizes, regular prices from \$4.50 to \$7; these are extra good quality, and strong, and while they last you can have them for 98c each.

50 White Pine Kitchen Tables, including nice, large drawer, 36 and 42 inches long, \$1.29.

of our customers, with a family of seven, told us that his gas bill was only 80c more per month, and that he could bake biscuits in four minutes. Can you beat this? Credit Cheerfully Given.
